## CREATE TO LEARN, LEARN TO CREATE!

Welcome to Curved House Kids and thank you for taking an interest in our work.

Curved House Kids is not just a publisher – we are an education company, a creative partner and an arts organisation working at the intersection of books, education and academia. We need partners like you: dedicated publishers and distributors, to help us reach the children who will benefit most from our high-quality books.

This year we are thrilled to present our new Make Your Own Books series – a unique concept that allows children to make their own books and collaborate with real authors and illustrators. This concept is extremely effective at getting kids excited about books and reading – including children with reading difficulties like dyslexia – and we are excited to find international partners to develop them as translations or publish them as English-learning books.

We look forward to working with you to inspire children all around the world to learn, create and communicate!

If you have questions about our list, education methodologies or future plans feel free to contact me directly: [kristen@thecurvedhouse.com](mailto:kristen@thecurvedhouse.com).

Kristen Harrison, Director

## MAKE-YOUR-OWN BOOKS!

- Language learning for creative kids!
- Collectible and personalisable
- Empowering and fun
- A unique gift for early readers

ILLUSTRATE  
**THIS  
BOOK**

# READ IMAGINE SCRIBBLE PLAN DRAW INVENT

This unique series allows children to illustrate their own books as they learn to read and write. Starting with alphabet books for 4+ years and moving on to picture books for 6+, each title in the series allows children to use their own ingenuity and creativity to make their very own book. Also available as paperback "travel editions".

## ILLUSTRATE YOUR OWN ALPHABET BOOKS

4+

26 collectible books for early literacy

This set of 26 alphabet books are brilliant first readers for children as they learn the alphabet and begin to read and write. This series is created with experts in the field of visual literacy and is underpinned by a compelling body of research showing the links between visual learning and language acquisition and the links between drawing and memory.

26 individual titles (A-Z)

Files Ready: November 2020

Format: 150 x 150mm, 32p full colour

Rights Available: World

Files Ready: December 2020  
 Format: 32p, Hardback (PPC)  
 full colour with stickers  
 Rights Available: World

## ILLUSTRATE YOUR OWN PICTURE BOOKS

6+

An introduction to reading for creative kids

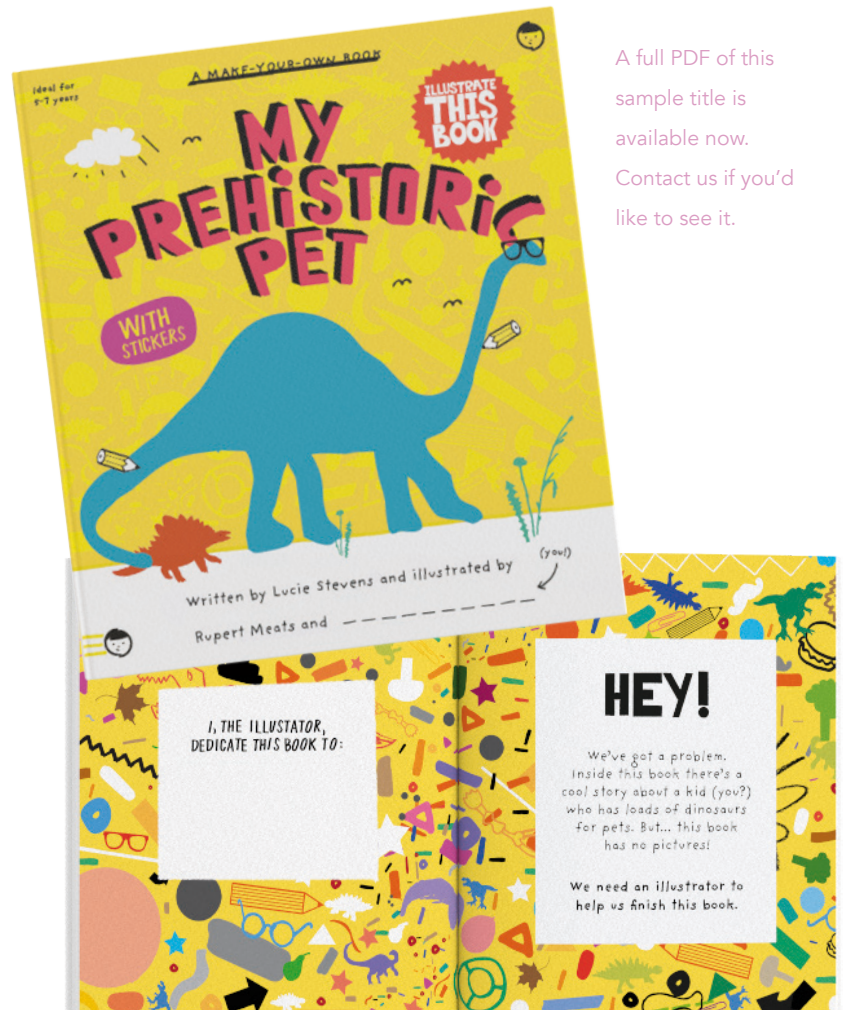

Introducing our newly redesigned Make Your Own Books allowing children to illustrate their very own picture book. Includes warm-up activities, a book planner, stickers and visual prompts from real-life illustrators, this series is sure to excite even the most reluctant readers. Launching with four books themed around Dinosaurs, Monsters, Astronauts and Unicorns, with more to come in 2021.

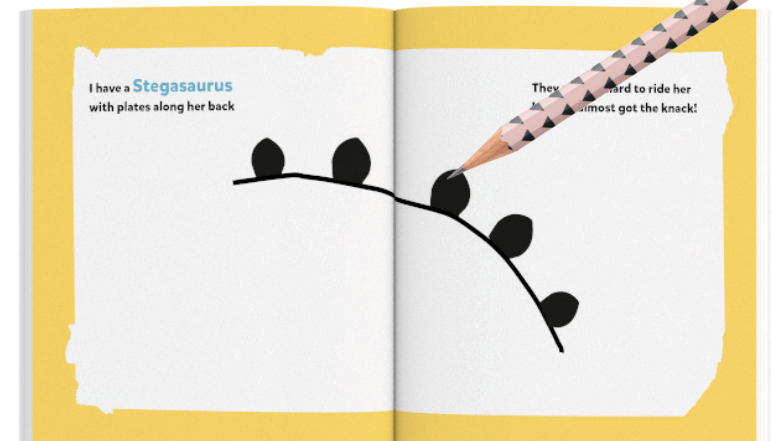

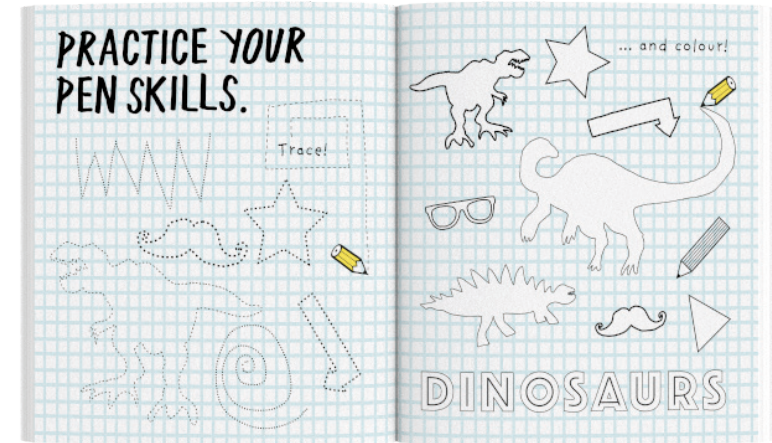

**LET'S GO** ➔

Written by Lucie Stevens & illustrated by Rupert Meats

My Prehistoric Pet is the first in our series of Make Your Own picture books for 6+. This unique concept, that allows kids to be the illustrator and complete their very own books, is hugely effective at engaging even the most reluctant readers.

A full PDF of this sample title is available now. Contact us if you'd like to see it.

## ILLUSTRATOR'S TOOLKIT

This creative kit is an essential item for budding young illustrators! With a box designed at the same size as the Make Your Own picture books, kids can collect this toolkit as part of a set.

All  
ages

Files Ready: October 2020

Format: Box (PPC) contains 32pp book (150mm x 150mm), 3 x grey pencils, washi tape, coloured pencils and stickers.

Rights Available: World

## INTRODUCING... OUR BRAND NEW **STEAM PUZZLE** BOOK SERIES!

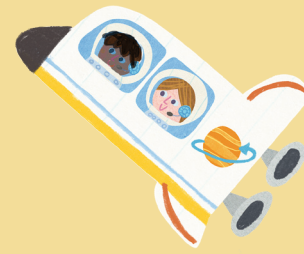

Made with  
experts

Based on real  
discoveries

Creative  
and fun

This fresh, colourful puzzle book series is packed with STEAM (Science, Technology, Engineering, Arts, Maths) activities encouraging kids to code, decode, problem solve, imagine, discover, make, report and invent – essential skills for future scientists! Themed around different branches of science, there's sure to be one book (or several!) in the series that will appeal to future scientists.

**2020: SPACE, DINOSAURS, BODY BUGS**  
**2021: OCEANS, EARTH, BRAIN**

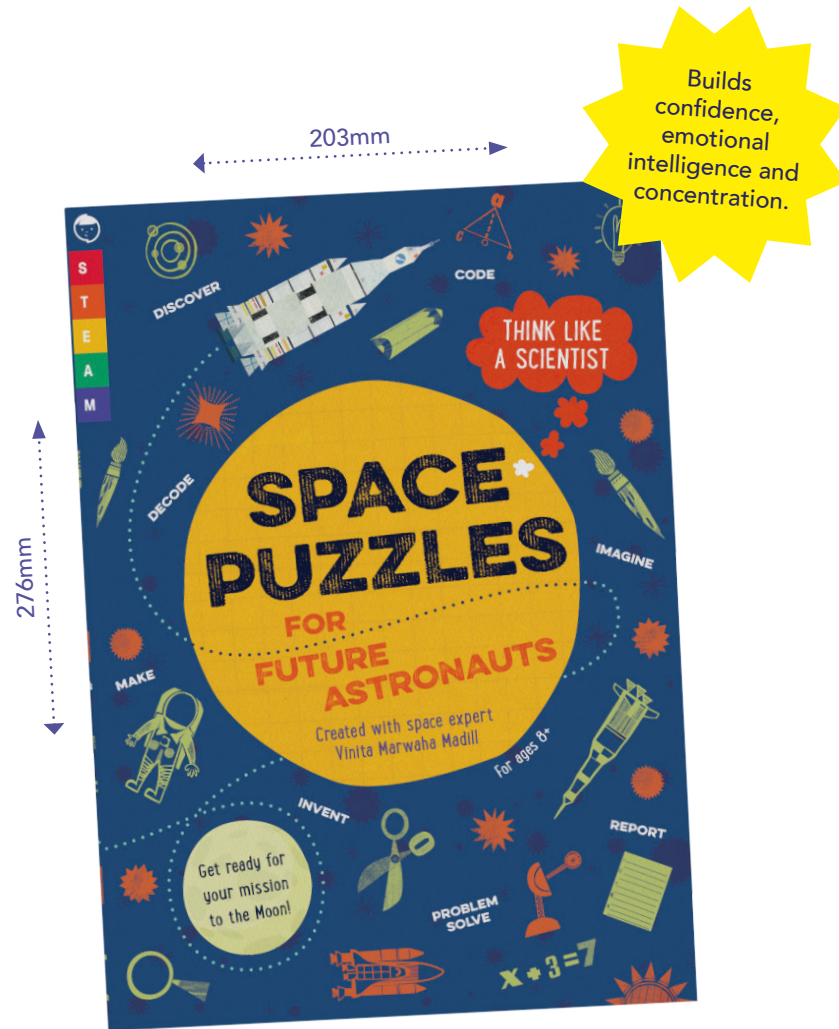

THINK LIKE  
A SCIENTIST

*Inspiring every child to  
think like a scientist!*

## SPACE PUZZLES FOR FUTURE ASTRONAUTS

*Created with Dr Vinita Marwaha Madill*

Renowned space expert Vinita Marwaha Madill gives kids the ultimate challenge: travel to the moon and build a city in space! Kids complete ten creative STEAM activities with stickers and booster challenges to incentivise them along the way. And they meet the expert and learn about Vinita's work and career. This book is for all kids but it is sure to inspire girls especially, to imagine themselves as future astronauts.

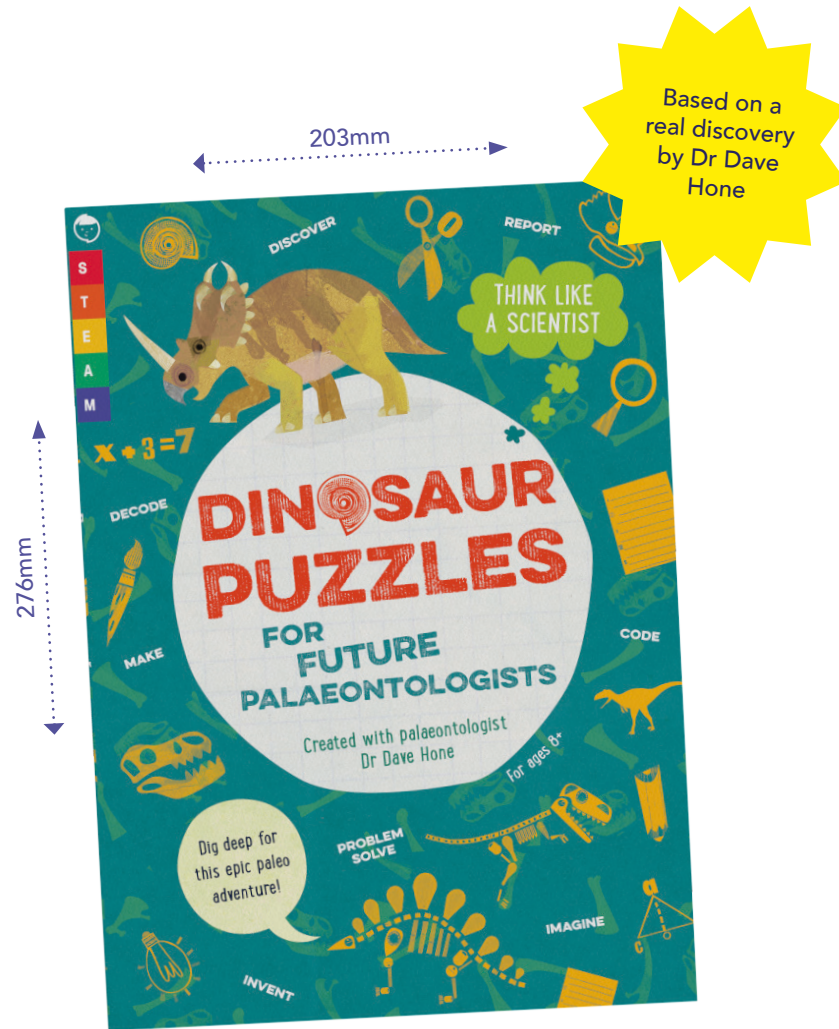

Files Ready: September 2020

Format: 32p, 276 x 203,

full colour with stickers

Rights Available: World

## DINOSAUR PUZZLES

### FOR FUTURE PALAEOLOGISTS

*Created with Dr Dave Hone*

Real-life palaeontologist, Dave Hone, has located a bountiful dig site but he needs a brave explorer to help unearth the fossils and discover the mysteries of our prehistoric Earth. With ten science-themed puzzles, kids practice problem solving, critical thinking, creativity, communication, literacy and visual literacy.

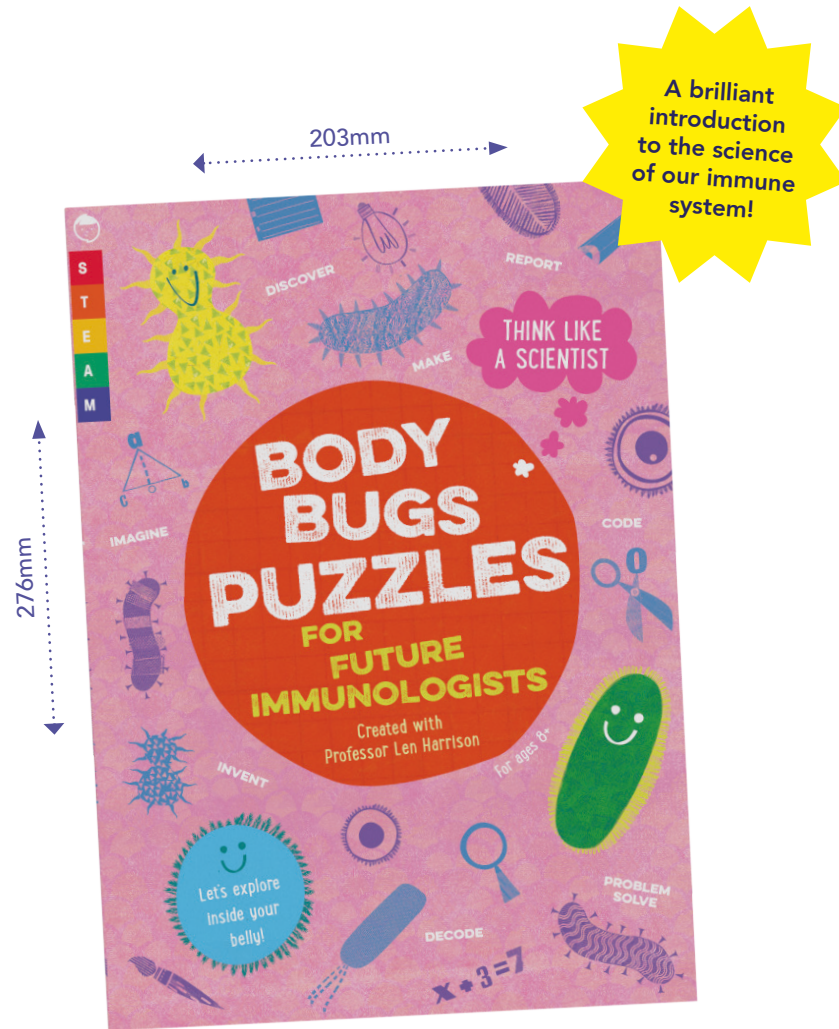

Files Ready: September 2020

Format: 32p, 276 x 203,

full colour with stickers

Rights Available: World

## BODY BUGS PUZZLES FOR FUTURE IMMUNOLOGISTS

*Created with Professor Len Harrison*

World-renowned immunologist, Professor Len Harrison, has joined forces with Curved House Kids to create this brilliant STEAM puzzle book for children aged 8+. Kids explore their own stomachs, learning about gut bacteria, healthy immune systems and how to have a healthy diet to protect against illness. Fun, colourful and empowering for future scientists!

Files Ready: November 2020

Format: 32p, 276 x 203,

full colour with stickers

Rights Available: World

## COSMIC BABY BOOKS

Bestselling series of black and white board books

Dr Iya Whiteley is a world-renowned psychologist specialising in astronaut training design. She starred as a judge on the BBC series *Astronauts: Do You Have What It Takes?* and has developed a series of black and white baby books published in the UK in paperback. Curved House Kids have re-imagined the series as board books to bring her already successful arts-based science concept to a wider audience.

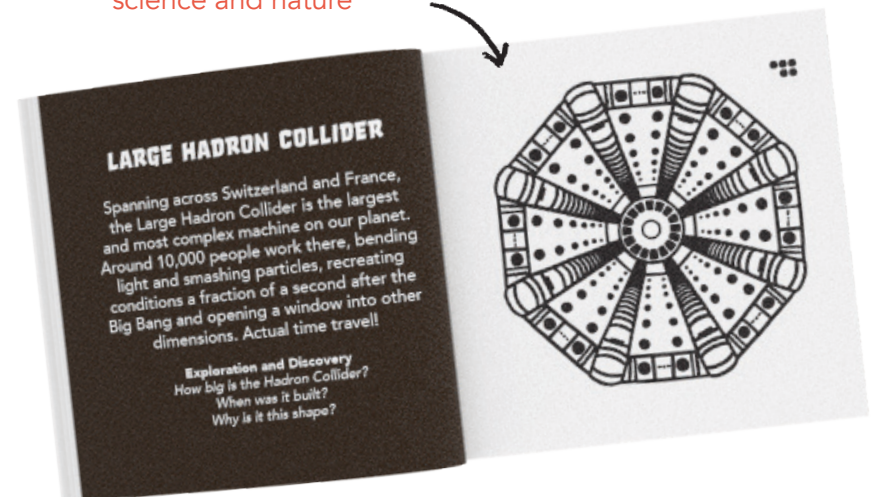

Created by  
Dr Iya Whiteley  
from the BBC's  
Astronauts series

Amazon  
bestselling  
series

Banded levels follow  
baby's development

Mesmerising images  
for babies taken from  
science and nature

Scientific facts  
for grown-ups

Files Ready: November 2020  
Format: Three titles, 200mm x 200mm,  
12pp board books, black throughout  
with foiled spine and title
